CHAIN CASE LUBRICANT

Klotz Black Formula™ Hi-Performance Chain Case Lube contains graphite molecules for reduced friction and surface drag. Provides maximum power and performance in extreme hot and cold conditions. Penetrates deep into chain rollers to loosen stiff links and extend chain and sprocket life. Eliminates rust and corrosion on chains and sprockets.

- Provides less friction for more power
- Penetrates deep into chain rollers to loosen stiff links
- Graphite provides increased protection
- Extends chain and sprocket life
- Eliminates rust and corrosion

▶ **APPLICATION:**

Snowmobile/ATV - For all enclosed chain case applications

▶ **CHARACTERISTICS:**

Film Strength: 9 1=failure; 10=virtually no wear
SAE Grade: 10W
Viscosity @ 100F: 500 SUS @ 100C: 11 cSt
Pour Point: -25F
Color: Black

▶ **DIRECTIONS:**

Compatibility: Will blend with petroleum oils and synthetic lubricants. 60% Biodegradable formula.

Fill to manufacturer's recommended level.

▶ **AVAILABILITY:** KL-500 12oz
